

DATA SCIENTIST

Name: Arjun Mehta

Email: arjun.mehta@example.com

GitHub: <https://github.com/arjunmehta>

LinkedIn: <https://www.linkedin.com/in/arjunmehta/>

Summary

Data Scientist with 4 years of experience applying statistical modeling and machine learning to customer, operational, and product datasets. Experienced in Python, SQL, feature engineering, model evaluation, and communicating analytical findings to business stakeholders.

Skills

| | |

| --- | --- |

| * Python * SQL * Pandas & NumPy | * Scikit-Learn * Statistics * Power BI |

Experience

Finora Analytics Data Scientist 02/2023 to Current

- Develop predictive models for customer retention and operational forecasting using Python and scikit-learn.
- Built reusable data-preparation pipelines that reduced manual analysis time for recurring reports.
- Presented model results and business recommendations to product and operations teams.

MarketBridge Data Analyst 07/2021 to 01/2023

- Analyzed customer behavior and created SQL-based reporting dashboards for business stakeholders.

Education and Training

Master of Science : Data Science | 2021 | University of Maryland, College Park, MD; Bachelor of Engineering : Computer Engineering | 2019 | Rutgers University, New Brunswick, NJ

Certification: Microsoft Certified: Power BI Data Analyst Associate

Skills

- Python
- SQL
- Pandas & NumPy
- Scikit-Learn
- Statistics
- Power BI
