

DATA SCIENTIST / SENIOR DATA ANALYST

Name: Arjun Mehta
Email: arjun.mehta@example.com
GitHub: <https://github.com/arjunmehta>
LinkedIn: <https://www.linkedin.com/in/arjunmehta/>

Summary

Data professional with 4+ years of experience in statistical modeling, machine learning, and business intelligence. Skilled in building predictive models, designing data models, creating BI dashboards, and leading analytics initiatives. Strong hands-on expertise in Python, SQL, R, Power BI, dbt, and modern ML frameworks (PyTorch, TensorFlow). Experienced in communicating insights to executives and mentoring junior analysts.

Skills

-----	-----	
* Python * SQL * R * Git	* Power BI * Statistical Modeling * Data Validation	
* Pandas & NumPy * Scikit-Learn	* PyTorch * TensorFlow * dbt * ETL	
* Data Modeling * MLflow * Airflow	* Team Leadership * AWS * CI/CD	
* Feature Engineering * Mathematics	* OpenCV * RAG * GenAI / LLMs basics	

Experience

Finora Analytics | Data Scientist / Analytics Lead | 02/2023 ? Current

- Lead analytics projects and mentor junior analysts on statistical modeling and data validation practices.
- Develop predictive models for customer retention and operational forecasting using Python, scikit-learn, PyTorch and TensorFlow.
- Design data models and build reusable ETL pipelines with dbt; optimize SQL queries for large datasets.
- Create executive-level Power BI dashboards and present findings to product and operations leadership.
- Implement basic MLOps practices (MLflow) and support CI/CD for analytics workflows.

MarketBridge | Data Analyst | 07/2021 ? 01/2023

- Built SQL-based reporting dashboards and performed customer behavior analysis.
- Supported data modeling and ETL processes for recurring business reports.
- Collaborated with stakeholders to gather requirements and document analytical solutions.

Education and Training

Master of Science : Data Science | 2021 | University of Maryland, College Park, MD
Bachelor of Engineering : Computer Engineering | 2019 | Rutgers University, New Brunswick, NJ

Certification

- Microsoft Certified: Power BI Data Analyst Associate
- AWS Certified Cloud Practitioner (in progress)

Skills

- Python, SQL, R, Git
- Power BI, Statistical Modeling, Data Validation
- Data Modeling, ETL, dbt, MLflow
- PyTorch, TensorFlow, Scikit-Learn, Pandas, NumPy
- Team Leadership, Feature Engineering, Mathematics
- AWS, CI/CD, Airflow, OpenCV, RAG, GenAI/LLMs (working knowledge)
